

Instructions for Notebooks

1. Hopefully you have a Gmail account.
2. Log in to Gmail and go to google drive [or directly log in to gdrive]
3. Within the My Drive Folder create a new folder: Colab Notebooks
4. Put these notebooks there.
5. Click on one of the notebooks (say: MNIST_Visualization.ipynb) and open with Google Colaboratory.
 - 5.1. You may not have Google Colab; No worries:)
 - 5.2. Go to google colab directly (<https://colab.research.google.com/>)
 - 5.3. Switch to Google Drive and you can see the notebooks (Figure below).
6. MNIST_Visualization.ipynb , MNIST_DenseNet.ipynb you can run without downloading any data.
7. To run Segment-Cell-UNET.ipynb you need to download data; Follow the instructions on the notebook.
