# Open Library: Center for Quality Assurance in Scientific Communication

University of Nova Gorica

The Open Library: Centre for Quality Assurance in Scientific Communication operates within the framework of the Action Plan for Open Science (measure 6.2 ReZrIS30) and is funded by the Government of the Republic of Slovenia, Ministry of Higher Education, Science and Innovation.

# Open Science as Public Science Policy

## Three steps towards implementing open science in Slovenia:

- Reform of the European Research Area (ERA) and the signing of the [Pact for Research and Innovation](#),
- Adoption of national legislation aligned with the principles of scientific policy in the ERA ([Scientific Research and Innovation Activity Act](#) in 2021, [Decree on the implementation of scientific research work in accordance with the principles of open science](#) in 2023).
- Institutional implementation: [Resolution on the Slovenian Scientific Research and Innovation Strategy 2030 \(ReZrIS30\)](#), [Action plan for Open Science](#).

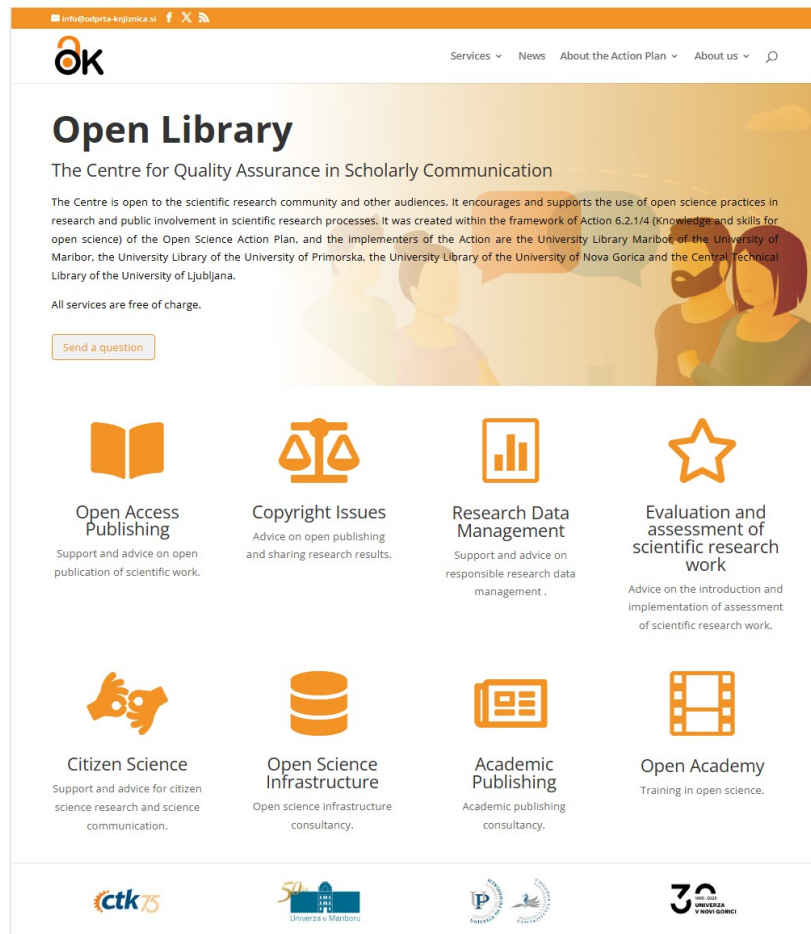

# Action plan for Open Science

The Action Plan for Open Science contains the main strategic objectives in the field of scientific research and innovation.

## A6.2.1/4 Knowledge and skills for open science:

- A6.2.1/4.1 Organising an open science information support network to ensure coordinated training of researchers to support FAIR and open science in Slovenia.
- A6.2.1/4.2 Establishment of professional support for resolving copyright and ethical issues in research work in the context of open science.
- A6.2.1/4.4 Promocija slovenske znanosti v kontekstu uporabe načel odprte znanosti.
- A6.2.5/1 Various activities in the field of citizen science.

# Open Library

<https://odprta-knjiznica.si/en>

The Centre is open to the scientific research community and other audiences. It encourages and supports the use of open science practices in research and public involvement in scientific research processes. It was created within the framework of Action 6.2.1/4 (Knowledge and skills for open science) of the Open Science Action Plan, and the implementers of the Action are the University Library Maribor of the University of Maribor, the University Library of the University of Primorska, the University Library of the University of Nova Gorica and the Central Technical Library of the University of Ljubljana.

## Contact

The Centre for Quality Assurance in Scholarly Communication (hereafter: the Centre) was established with the support of the Ministry of Higher Education, Science and Innovation. [University Library of the University of Primorska](#), the [University of Maribor Library of the University of Maribor](#), [University Library of the University of Nova Gorica](#) and [Central Technical Library at the University of Ljubljana](#) to provide researchers and other interested parties with high-quality support for their scientific research work in an open science environment.

The principles of open science are based on collaboration, not competition. Our Centre operates in a spirit of collaboration. This is the first joint project of its kind in Slovenia between three university libraries and the Central Technical Library (an associate member of UL). By working together, we will solve users' challenges more efficiently.

You can contact us via the contact form or directly by email: [info@odprta-knjiznica.si](mailto:info@odprta-knjiznica.si). Please indicate which institution you are from next to your name.
