

Contribution ID: 143

Type: **not specified**

**O44- Mohanachandran S. Swapna: Unwrapping the soot assisted intra-pigment energy transfer in leaves through thermal lens technique: time series analysis in nanobiophotonics**

*Tuesday, 21 June 2022 14:30 (20 minutes)*

Uni. of Nova Gorica, Slovenia

Room: Zrak

Chairman: S. Volz

**Session Classification:** Low-Dimensional Systems, Nanoscale Phenomena and Nanostructures
