

# ICPPP21 International Conference on Photoacoustic and Photothermal Phenomena

## Wednesday 22 June 2022

### Environmental, Agricultural, and Food Applications (10:30-12:20)

time	[id] title	presenter
10:30	[164] KN22- Mikhail Proskurnin: FTIR photoacoustic spectroscopy of soils: Comparison of FTIR modalities for soil fractions of various agrogenesis - KEYNOTE LECTURE	
11:00	[165] O66- Jérémie Mathurin: AFM-IR study of carbonaceous chondrites and Ryugu samples returned by the Hayabusa 2 space mission	
11:20	[166] O67- Szabolcs Hodovány: Soot selective size distribution measurement. A demonstrative study	
11:40	[167] O68- Marilena Giglio: Air pollutants detection with QEPAS sensors	
12:00	[168] O69- Hanna Budasheva: Optimization of PTD system for characterization of transparent and semi-transparent samples
